SUMMARY

Created attractive UI designs, developed professional websites, and helped many people around the globe bring their online businesses to life, all with a deep passion and dedication to achieving close-to-perfection results. Looking to leverage my skills to produce seamless and profitable websites, apps, and user interfaces.

I love playing airsoft because it's complex, fast-paced team sport, while snowboarding makes me feel completely free.

AWARDS

PHOENIX HACKATHON | 2021

I've participated in lots of hackathons, but I truly loved the app that I and my team created here, and so did the jury. We developed a waste management app that put the team in the first place.

DPIT ACADEMY | 2021

Being part of the academy meant working in a team to create an app while being mentored by a certified developer. I graduated with top distinctions.

NATIONAL OLYMPIAD OF INFORMATICS | 2017-21

Having got up to the national phase of the olympiads several years, I've developed a problem-solving mindset, while being able to work under stress and overcome lots of obstacles.
